

SOVEREIGN Retractable Stairway

very robust and total industrial duty - TÜV approved to Euro Safety Standard EN14975

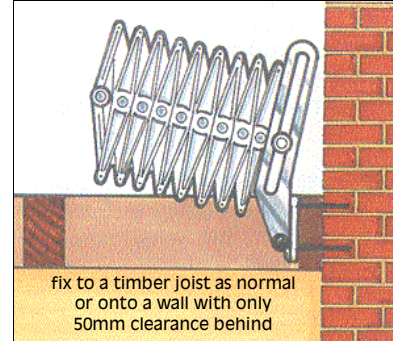

Ideal for those who want only the safest & strongest!

- ▶ Constructed from very heavy-duty pressure die-cast components of high strength aluminium alloy, the Sovereign Stairway has been engineer designed for minimum maintenance and maximum ease of use.
- ▶ Powerful counterbalance springs ensure a smooth, steady folding and unfolding action under total control and with no danger to the user.
- ▶ TÜV tested and approved to Euro Safety Standard DIN EN14975 with safe load of 200kg per tread or 500kg/m² on overall structure.
- ▶ Cast alloy non-slip treads are a very comfortable and safe 350 x 140mm (14" wide x 5½" deep). Treads are 300 x 140mm on 12 tread model.
- ▶ Mounted on a 580 x 200mm plywood backboard, it is suitable for use in situations with or without a trapdoor. Simply bolt to a vertical surface above the trapdoor (if present). Height of joist may need increasing to 200mm and must be very secure to take the weight of these ladders.

SOVEREIGN Retractable Stairway

very robust and total industrial duty - TÜV approved to Euro Safety Standard EN14975

exceptional strength and quality

Sovereign Stairway is suitable for use in a variety of applications. It can be bolted to a joist above a trapdoor as normal, or it can be bolted to a wall where no trapdoor exists. When bolted to a wall an extra 50mm of packing must be fitted behind the backboard to ensure it can rotate correctly into its stored position.

**TÜV approved to
Euro Safety Standard EN 14975**

**200kg loading per tread
or
500kg/m² on overall stairway**

Giant cast aluminium treads 350 x 140mm (14" wide x 5½" deep) give a feeling of total safety and security to even the most nervous loft ladder user. Treads are 300 x 140mm on 12 tread model.
