LoftCrawler Sectional Loft Crawling Board

- ▶ LoftCrawler is a sectional loft crawling board which fits through the smallest loft hatches and rapidly fixes into 2.70m long crawling board for safer loft work and inspections.
- ▶ Purpose built for loft insulation work and energy surveys.
- ▶ Fits through even the smallest loft openings - each section just 1.0m long x 0.33m wide (3ft x 1ft approx.) and rapidly assembled with slot-n-latch fixing to full 2.70m length.
- ▶ Developed with a major national utility company (patent pending).
- ▶ Rests on ceiling joists and prevents users from damaging ceilings or falling through.
- ▶ For single person use and must be supported at maximum 600mm / 24" intervals.
- ▶ Max load 175kg and UK built from materials conforming to BS2037:1994 Class 1 Industrial specifications.
- ▶ Lightweight alloy frame with non-slip phenolic coated plywood decking.
- ▶ Quick release toggle latches secure sections at both joints.
- ▶ Fitted with stowage strap for transport & storage.

fast connection with **Easy-Locate** spigots (one longer than other)

plus quick release **Toggle Latches** secure 3 sections together into 2.7m long crawler

LoftCrawler - sectional loft crawling board

Code	Description	Overall Length	Fully Assembled Size LxWxD	Storage Size LxWxD	Weight (kg)
